<p style="text-align: center;"><b>Spring and Fall Clean-Up Price: \$50.00 per man hour. Normal size yard usually takes 3 guys one hour.</b></p> <p style="text-align: center;">Includes complete clean-up of leaves/debris on all grassy areas. Landscaped beds are blown clear of leaves.</p> <p><input type="checkbox"/> <b>Spring</b> service typically takes place during the months of <b>March, April and May.</b></p> <p><input type="checkbox"/> <b>Fall</b> service typically takes place the beginning of <b>November</b> continuing until finished weather permitting.</p>				
<p style="text-align: center;">The customer is responsible for all underground items to be marked prior to dethatching and aeration. Cutting Image LLC will notify all customers at least 1 week in advance of their scheduled dethatching and or Aeration date. Upon customer request, <b>Cutting Image can mark your sprinkler heads for an additional charge.</b></p> <p><input type="checkbox"/> <b>DETHATCHING</b> Price is \$ _____ (Must be done prior to grass turning green.)</p> <p>Power raking best done in <b>March and April</b> while the grass is still dormant, as the rake's flails can damage actively growing crowns. <i>It is primarily a cosmetic procedure with some minor health benefits.</i> If your lawn has an excessive amount of thatch, i.e. a thick layer of living and dead organic material between the grass and the soil, power raking will not remove it. However, if an excess amount of clippings has built up on top of your grass, and you want to get a jump start on a green lawn for spring by removing this layer, then power raking is for you.</p>				
<p style="text-align: center;"><b>Aeration – please choose option(s) below – Recommended 2x per season: Price per Time: \$ _____</b></p> <p style="text-align: center;">Aeration and Over Seeding Price per Application: \$ _____</p> <table style="width: 100%; border: none;"> <tr> <td style="width: 50%;"><input type="checkbox"/> Spring Core Aeration (May/June)</td> <td style="width: 50%;"><input type="checkbox"/> Spring Core <b>Aeration and Seeding.</b></td> </tr> <tr> <td><input type="checkbox"/> Fall Core Aeration (September/October)</td> <td><input type="checkbox"/> Fall Core <b>Aeration and Seeding.</b></td> </tr> </table>	<input type="checkbox"/> Spring Core Aeration (May/June)	<input type="checkbox"/> Spring Core <b>Aeration and Seeding.</b>	<input type="checkbox"/> Fall Core Aeration (September/October)	<input type="checkbox"/> Fall Core <b>Aeration and Seeding.</b>
<input type="checkbox"/> Spring Core Aeration (May/June)	<input type="checkbox"/> Spring Core <b>Aeration and Seeding.</b>			
<input type="checkbox"/> Fall Core Aeration (September/October)	<input type="checkbox"/> Fall Core <b>Aeration and Seeding.</b>			
<p><input type="checkbox"/> <b>Weekly Mow/Trim/Turf Edging /Blow:</b> All grassy areas are mowed and trimmed; all driveways, sidewalks, patios and curbsides are blown clear of debris. This weekly price typically begins towards the end of May and run through the month of October. Cutting Image LLC will not be responsible for normal wear marks from grass trimmers on tree trunks/roots, fence posts, and mailbox posts that are not properly protected. This includes shrubs/perennials/annuals that are not surrounded by landscape. If the grass is growing at a pace that is not manageable within a week's time, double cutting on the same visit may be necessary. Extra charges will be assessed accordingly for these situations equal to no more than half the "weekly mow price". This is sometimes necessary to accomplish high quality results and customer complete satisfaction.</p> <p><b>Foul weather exceptions:</b> Occasionally, rainy weather causes a disruption in our work schedule. This is unavoidable, and we expect that to happen without fail each year from time to time. Our protocol for handling this situation is simply to push the job schedule forward as needed to catch up. For instance, if your designated mow day is Wednesday, and we get rained out on Tuesday, we would arrive on Thursday to service your property. Then, we will resume the normal schedule the following week. In this event please be aware of your watering in the change of schedule. If you would like to know which day for sure that your job will be completed in this event, feel free to call in for an update on the mowing schedule. In the event that we get rain several days in a row and have to skip mowing for the week the additional work required to bring the property back to a well groomed standard will be subject to additional charge not to exceed a mow and a half.</p> <p style="text-align: center;"><b>Weekly Mow Price \$ _____</b></p>				

Irrigation Spring Start-up / Fall Shut-down. Price is \$50.00 each service.

Spring Start-up service during months of April and May.

Fall Shut-down service typically takes place during the month of October.

More information at <http://cuttingimagellc.com/irrigation.html>

**Gutter Cleaning – please choose option(s) below – Recommended 3x per season: Price per Time. \$ 50.00**

“Spring” Gutter Cleaning (April/May)

“Mid-Summer” Gutter Cleaning (July)

“Fall” Gutter Cleaning (late October/November)

**Weed Control Landscape Bed's Price per Application. \$ 50.00**

I would like the weed control program that includes all 4 applications.

I would only like the weed control applications that I selected below.

Treatment #1 – Mid March – Early April

Treatment #2 – Mid May – Late May

Treatment #3 – Mid June – Early July

Treatment #4 – Mid September – Late September

**Fertilizer: Price per Application. \$**

I would like the Fertilizer program that includes all 7 applications.

I would only like the Fertilizer applications that I selected below.

**March – April.** Pre-emergent weed control and a granular fertilizer to give your lawn a jump start on spring. We'll also diagnose your lawn for any disease and insect issues that may have occurred over the winter.

**April – May.** Liquid fertilizer to thicken your lawn and broadleaf weed control to stop the weeds before they take root. A second round of pre-emergent weed and crabgrass control will also be applied should any potentially return.

**May – June.** Granular Slow Release feeding with spot or blanket application of weed control will be applied as needed. We'll also spot treat crabgrass as needed. Surface Damaging Insect Control Free of Charge!!!

**July – August.** Granular Slow Release feeding with spot or blanket application of weed control will be applied as needed. We'll also spot treat crabgrass as needed.

**July – August.** Hydro Wet TG Wetting Agent is administered to your turf for the benefit of retaining moisture and reducing dry areas and watering expenses.

**August – September.** Balanced Feeding with Broadleaf Weed Control will blanket your property to keep aggressive late summer noxious weeds at bay. We also inspect your lawn and soil and apply the proper plant food for the ultimate results.

**October – November** Winter Wrap Up! One of the most important visits to prepare the lawn for the long winter hibernation and the trick to an early spring green-up.

**Dog scooping service \$20.00 a week per dog.** With Cutting Image weekly Pet Waste Removal Service, you can wash your hands of the whole “clean up” business.

**If your yard is not cleaned up for Lawn Service you will be charged for this service.**

The terms are net 15 days. A late payment fee of \$25 will be assessed after 15 days. Finance charges of 21% APR will then be assessed for each 30-day period that a full payment of an invoice has not been received. By signing this contract, I personally guarantee payment and understand all pricing.
